PROFESSIONAL SUMMARY:

Tech-savvy 2nd-year BSIT student with project-based experience in full-stack development using React, HTML, CSS, Javascript, and MySQL (and other CLI Applications using C and C++ and Java based mini projects). Passionate about building practical applications and learning through collaboration and hands-on coding.

TECHNICAL SKILLS:

Language and Scripting: HTML, CSS, JavaScript, PHP, C, C++, Java

Web Technologies & Frameworks: React, Express.js, Bootstrap

Databases: MySQL

Tools and Platforms: Github, VScode, Netbeans, Dev-C++, Figma, Insomnia

Other: CLI Application Development, Object Oriented Programming

RELEVANT PROJECTS:

LNHS Student Information System (Ongoing) March 2025 - Present

- A full stack web-based system for managing student records for Ligao National High School
- Built using React, Express.js, Javascript, CSS, and MySQL
- Handles student profiles, grades, and academic information, and admin and user management

Menu of Applications (School Project) March 20, 2025

- Created a navigational interface using Bootstrap to showcase multiple mini-projects such as a unit converter, automatic bmi calculator, and simple grading system.
- Built using HTML, Bootstrap CSS, and PHP.

Student Registration System (Java Swing Application) December, 2024

- GUI-based CRUD app allowing insert, update, and delete of student data, built using OOP principles in Java.

Standard & Boolean Calculator (Java Swing Application) November, 2024

- A GUI calculator with standard arithmetic and a Boolean mode that includes numeral system conversion (binary, decimal, octal, hex) and arithmetic operations as well.

Hotel Room Reservation System (CLI Application in C) March, 2024

- Command-line application to reserve hotel rooms
- Utilized file handling and structured programming in C

EDUCATION:

Bachelor of Science in Information Technology
Bicol University, College of Science
Legazpi City, Albay | Expected Graduation: June, 2027
Currently an incoming 3rd year student

OTHER INFORMATION:

Soft Skills: Team collaboration, adaptability, eagerness to learn, problem-solving

Extracurriculars: Former junior councilor of BU CIRCUITS technical committee (AY 2024-2025)

Languages: English, Filipino

Interests: Building real-world apps, improving UI/UX skills and backend skills such as API integrations
